

*Il Ministro dell'Istruzione,
dell'Università e della Ricerca*

Roma, 27 luglio 2012

Dear professors,

cultural and economic relations between Italy and Brazil have become so close and prosperous over the years that I am sure they will grow in the future and create positive effects for both our nations.

Therefore I really appreciate the organization of the “Brazil-Italy Geometry Meeting 2012”, that will take place at the Federal University of Bahia.

Conscious of the importance of the discipline for the development of pure and applied sciences, the Italian Ministry of Education University and Research congratulates for the event, that will contribute to strengthen our scientific and intellectual cooperation, and send to all of you, the Scientific Committee and the Organization Committee best wishes for the upcoming forum.

In hopes that it will be successful and we will have another opportunity to meet, best regards.

Francesco Profumo
