

Second Announcement

Brazil-Italy Geometry Meeting 2012 (EGBI2012).

Salvador, Bahia, Brazil, July 23 – August 3, 2012.

(www.icmc.usp.br/~egbi2012)

This is the second announcement of the Brazil-Italy Geometry Meeting to be held at Universidade Federal da Bahia, Salvador, Bahia, Brazil, from July 23 to August 3, 2012.

This meeting intends to stimulate the academic cooperation between the Brazilian and Italian geometry community. To do so we will have, in the first week of the event, four minicourses both in Differential and Algebraic Geometry. They will be delivered by the following mathematicians:

Giovanni Landi, Trieste, Italy
Levi Lima, Universidade Federal do Ceará, Brazil
Israel Vainsencher, Universidade Federal de Minas Gerais, Brazil
Alessandro Verra, Roma 3, Italy.

The second week of the meeting (the workshop) consists of plenary lectures, giving a broad overview of active mathematical research in geometry, and more specialized talks (thematic sections and posters) on recent results. The following mathematicians have accepted to give a plenary lecture:

Dan Avritzer, Universidade Federal de Minas Gerais, Brazil
Fabrizio Catanese, Universität Bayreuth, Germany
Ana Fino, Torino, Italy
Massimiliano Pontecorvo, Roma 3, Italy
Marco Rigoli, Milano, Italy
Luiz San Martin, Universidade Estadual de Campinas, Brazil
Aron Simis, Universidade Federal de Pernambuco, Brazil
Keti Tenenblat, Universidade de Brasília, Brazil
João Lucas Barbosa, Universidade Federal do Ceará, Brazil

You can now find all these information and much more on the site of the event. But most importantly, you can register for the meeting on the site. Note that while registering, you will be able to submit an abstract of a talk (30 minutes) or a poster to be presented at the event.

Best regards,

The Organizing Committee.
